PROFILE

Dedicated and skilled Freelance Full Stack Web Developer with expertise in JavaScript, TypeScript, React, and Node.js. Proven ability to deliver high-quality projects, including a product catalog website, an eCommerce site, and a student management system. Adept at collaborating on SEO strategies and optimizing website performance.

FREELANCE WORKS

Student Management System (Mirror Institute)

Aug 2022 – Feb 2023

Developed a student management system for Mirror Institute, simplifying attendance tracking, test results management, and work submissions. Created a faculty portal with SMS integration for efficient communication. Improved administrative tasks and engagement through streamlined data handling and user-friendly design.

eCommerce Website (The Soul Space)

May 2023 – Aug 2023

Built an eCommerce site for The Soul Space, with a user-friendly product catalog, shopping cart, and checkout process. Implemented user accounts, integrated secure payment gateways, and optimized website performance. Contributed to SEO and marketing efforts, boosting organic traffic.

Product Catalog Website (Ashapuri Fireworks)

Sep 2023 – Oct 2023

Developed a robust product catalog website for Ashapuri Fireworks, featuring over 300 products. Created a user-friendly portal and integrated a WhatsApp bot for easy product management. Improved search engine rankings by adding the business to Google Maps and implementing effective SEO strategies.
